

# MUCH MARRIED MAN'S STORY.

Sequel to a Real Life Drama Enacted at Plattsmouth.

# MANY CLAIMANTS FOR A FORTUNE.

Estate of the Sutton Railway Wreck's Victim Finally Divided—O'Neill Republicans Meet in Convention.

PLATTSMOUTH, Neb., July 14.—[Special to THE BEE.]—A settlement was effected yesterday in the county court, which was the sequel to a drama in real life.

The case was the contest over the testamentary bequest of the late John S. Roberts, a railroad engineer who was killed in the fatal wreck at Sutton on March 25.

Roberts had rather an unenviable reputation in the matrimonial line, and he enjoyed the questionable distinction of having led a bride to the altar on more than one occasion.

When he was already a married man, he acknowledged to persons in this city that he had served a term in the penitentiary in West Virginia. He was first married in West Virginia to the woman now claiming to be his widow, and shortly after their marriage secured a divorce, but the woman lived in this city with deceased as his wife during the last winter, and she alleges that they were subsequently remarried.

Roberts second known escapade in the matrimonial line also occurred in the east, but he again secured a divorce, and the woman over three years ago came west and went into the employ of the B. & M. as an engineer, and up to this time she has been in Plattsmouth. He made efforts to lead other innocent and unsuspecting females to the matrimonial altar, and but for his death would probably have succeeded in his marital designs.

He had paid unceasing attentions to a young lady—a daughter of a wealthy farmer of Sarpy county, and had worked himself so far into the good graces of the old gentleman, that he finally managed to secure a loan of a few hundred dollars with the farmer as his security, to whom he gave a chattel mortgage on his land. The old farmer, suspecting the farmer thought everything all right at the time, but subsequently something came to his mind, and he went to the city to find out sufficient to convince him of his intended son-in-law's duplicity and questionable actions. He found that the old gentleman had been deceived, and the developments thwarted that gentleman's matrimonial designs upon the daughter.

But in the meantime he became very attentive to another highly respectable young lady of Albia, Ia., and whom, it is believed, he really loved. He was, however, content there can be no question but that was his apparent design, as he made a will on August 27, 1890, bequeathing all of his property to the young lady, who is now in possession of \$8,000 in life insurance and some real estate in Iowa. This will was the basis of contention in the county court, and the court agreed to stipulate that Christina Roberts shall be acknowledged the lawful widow; that she shall withdraw all objection to the probating of the will, and that Edwin S. Gresham shall be appointed administrator with will annexed of the said estate.

It is further stipulated that Christina Roberts is to receive the sum of \$150 allowance for her maintenance during the time of the administration proceedings, and she is to have the sum of \$1,000 for her funeral expenses, and the balance of the estate, with the personal property of the deceased allowed by law. The other half of the estate will go to Miss Sadie D. Taylor, the Iowa girl.

**Damaging Fire at Aurora.**  
AURORA, Neb., July 14.—[Special to THE BEE.]—Fire broke out at 2 o'clock this morning in a frame block on Thirteenth and K streets, in this city. A few minutes after the alarm was given, the flames were on hand and had three streams directed on the burning mass.

Realizing that the flames had gained too much headway to permit the saving of the frame structures in which the fire was raging, the efforts of the firemen were directed chiefly to preventing the spread of the elements to adjoining property. The first National bank building and a two-story double front store building, the Western Union telegraph office, and brick structures, are on the same block, the latter immediately adjoining the building in which the fire started.

As the flames were constantly playing on the exposed wall, however, the spread of the flames in that direction was arrested, but all the buildings on the block were entirely destroyed. Fortunately the burned buildings were old frame structures, mostly unoccupied, and the loss is comparatively small.

Following is a list of the losses and insurance:

M. Dinkels, loss \$500, no insurance; T. E. Standard, saloon, loss on building and stock \$2,000, insurance \$1,800; A. M. Glover, loss on building \$1,000, insurance \$800; A. P. Hattie, loss on building \$2,000, insurance \$800; Curry & Chapman, loss on building \$1,000, no insurance.

On the ground in the vacant building of M. Dinkels, and was probably of incendiary origin. This is Aurora's first blaze of any importance.

**O'Neill Republicans Meet.**  
O'NEILL, Neb., July 14.—[Special Telegram to THE BEE.]—The annual county committee met here today. There was nearly a full attendance and the meeting was harmonious. It was decided to hold the county convention at O'Neill Saturday, September 12. The Republicans of Holt county are well organized and will place a fine fight in the field with every prospect of success at the coming election.

The county farmers' alliance held an annual picnic here today. Three hundred farmers, their wives and children crowded a rink in the afternoon and listened to a speech by State Lecturer William P. He spoke in the court house in the evening, after which a dance and general jollification was held in the town.

The O'Neill people remember Pratt as he was here two years ago and lectured on mortality. He is a professional phonologist.

**Unidentified Dead.**  
CHAMPAIGN, Neb., July 14.—[Special to THE BEE.]—The only trace that has come to light in regard to the man found dead in the power room of the elevator at this place on last Friday is the finding of the owner of the revolver which he had with him. They have been identified by Dan Tye, who lives four miles south of Marquette, in Hamilton county, age 22 and an 8-caliber revolver.

Alvin Tye, who lives four miles south of Marquette, place July 3, also the two coats and vests which the dead man had with him. All further trace of his identity remains a secret.

His remains were interred in the potter's field of the Champaign cemetery.

**Blue Valley Crop Ruined.**  
SHRIMP RANCH, July 14.—[Special to THE BEE.]—A very heavy hail and rain visited this place and vicinity this morning at 3 o'clock. Oats and spring wheat are ruined. Fall wheat and rye was mostly in the shock. Corn will make perhaps one-third to one-half crop. All garden truck and fruit is entirely ruined. Lots of stock was ruined by being out in wire fences—farmers coming in the damage was four to five miles in extent. Blue Valley being about the center.

**Thrown from His Saddle.**  
EKLUND, Neb., July 14.—[Special Telegram to THE BEE.]—This morning while on his way home from this city, Nelson Swan

# REPORTED INDIAN TROUBLE.

Chippewas of Minnesota Alleged to Be Arranging a Massacre.

# CHIEF WHITE CLOUD STATES THE CASE.

Impatient Over the Government Failure to Make a Satisfactory Settlement—Cash, Not Wagons Desired.

WASHINGTON BUREAU OF THE BEE, July 14.—[Special Telegram to THE BEE.]—A sensational telegram from Chicago this morning reported a great commotion among the Chippewas of the White Earth agency in Minnesota. According to the dispatches an outbreak and probable massacre is imminent.

The Indian bureau has received no information which would indicate that there is any basis of truth in the sensational report. Some time ago a letter was received from White Cloud in which he said that the Indians on his reservation were impatient over the delay in paying them for the damages occasioned by the overflow. He added that his people wanted cash because they have oxen and wagons enough and besides oxen are of no use to the young men who are teaching school and the young men who are trying to get through college.

Commissioner Morton has asked the agent at White Earth to report if there is any good reason why money should not be paid. Upon his report a prompt settlement will be made and no trouble is anticipated.

**Highwayman Deceitfully Captured.**  
FREMONT, Neb., July 14.—[Special Telegram to THE BEE.]—The man who robbed the Union Pacific depot and agent at North Bend Sunday morning was captured near the town of Fremont, Neb., and is now in the hands of the sheriff.

He proved to be one Joseph Dodge, a resident of that neighborhood. He was brought here tonight and lodged in jail.

**WOMEN'S GOLD FIELDS.**  
Much Excitement at Saratoga, Over Brilliant Prospect of Gold.

SARATOGA, Wyo., via Fort Steele, July 14.—[Special Telegram to THE BEE.]—Work was begun yesterday on a drain ditch to Jack creek near the summit of the continental divide, within a few miles of Saratoga, preparatory to hydraulic mining.

It is estimated that the ditch will pay 10 cents per yard to work it, depth of nine feet. Coarse gold as large as wheat grains have been taken out of the Grondall prospects well, and the big supply of water from the falls makes it easy to wash out the gold for a few minutes.

A company has been organized to work the ground and men are now digging a ditch to the river. It is expected that the ditch will be finished in a few days, and the gold fields will be opened.

A large force of men will be engaged soon and are expected to make a big clean-up of the close of the season.

J. J. Rankin, of the Leas Wilcox and D. S. Baker, of Fremont, Neb., and J. W. Crane, of Aurora, Neb., and Omaha and other Saratoga men are interested in the company. Great excitement prevails in the city over reports from these rich diggings. Since the publication of the report, the prospecting has been greatly stimulated.

All the creeks on this side of the continental divide will soon be a scene of hydraulic mining. It is expected that the big strike in Chatterton, just over the Grand encampment. A carload of ore is to be shipped to Omaha from there immediately.

Saratoga will soon begin to look like the big strike in Chatterton, just over the Grand encampment. A carload of ore is to be shipped to Omaha from there immediately.

**Explosion of Dynamite Cartridges on Board a Ship at New Ship.**  
NEW YORK, July 14.—A gang of longshoremen were engaged in discharging the cargo from the steamship Gerbooth, lying at the foot of Richards street, Brooklyn, when a box of dynamite cartridges in the aft hold exploded, blowing two men seriously injured.

The victims were: Killed—Cornelius Hayes and William Reegan. Injured—William Williams, first mate, sprained ankle and contused wound on right foot; Ivan Lorransen, ship's machinist, sprained wrist and injured leg.

The explosion raised the deck and blew a big hole into the port side of the ship. Immediately the ship began to fill and shortly after the explosion the ship was listing to starboard. The crew were ordered to abandon ship, and the ship was towed to the pier.

The explosion was caused by a box of dynamite cartridges in the aft hold. The explosion was caused by a box of dynamite cartridges in the aft hold.

# CAMPBELL SURE OF SUCCESS.

Ohio's Present Governor Certain of the Democratic Nomination Today.

# RESULT WILL NOT BE MADE UNANIMOUS.

Bloody Row Between Representatives of the Ohio Republican Faction at Cleveland—An Innocent Bystander Injured.

CLEVELAND, O., July 14.—Governor Campbell will be the nominee of the democratic convention tomorrow for governor of Ohio. The logic of the situation impels every unprejudiced observer to this conclusion and only the persistency of the other candidates in these districts prevents this conclusion being accepted by all parties.

The contest will be short and decisive and will be concluded with the first ballot. Governor Campbell will receive far more than enough votes to nominate him, but the anti-Campbell delegates insist that they will go on record in opposition in order to prevent a unanimous nomination. Thus, a far as the convention is concerned, harmony is politically rejected as an unnecessary political commodity and the only question now is, will the anti-Campbell factions carry their grievances to the polls. There are twenty-five or thirty of the Cincinnati or Hamilton county delegates who vote that they will, and the Cincinnati delegates are the majority. If not the company of a dozen or more of the Cuyahoga county or Cleveland delegates.

**Bloody Row Among River Bourbons.**  
There have been many bloody wars in the hotel lobbies today between the Campbell delegates and their opponents and in several instances the disputes went to such an extent that the admirers of the governor answered the threats of the Hamilton county delegates by defying their opposition and declaring that Campbell could be both nominated and elected without the help of Cincinnati.

"The day has passed," angrily exclaimed a country delegate in the Hollenden hotel, when Cincinnati can rule the democratic party of Ohio. You fellows can do your worst. We will elect Campbell without Hamilton county.

All things are done by the delegates of both Campbell and Neal, but their ill-effect is none the less felt in the party ranks. The day was not destined to pass, however, without these things terminating in bloodshed. While an angry wrangle was in progress this evening in front of the Plaine dealer office, a fight broke out between a Campbell and an amateur prize fighter, and William and James Patterson, Neal delegates, all understood to be from Cincinnati, the two were slain and the other two were wounded.

A lively fusillade followed, in which four or five shots were fired with mild effect. The fight was over in a few minutes, and the bodies of the two men were raised as clubs with more appreciable effect on the contestants. They all received numerous gashes on the head and were bleeding profusely when arrested.

This unfortunate incident tended at once to position. The party leaders of the factions immediately united in a vigorous protest against the faction wrangles which have continued throughout the day, and tonight disputes are discontinued by all and a strong attempt is being made to restore party harmony.

**An Ovation to Campbell.**  
The full strength of the Campbell following was not appreciated until the governor reached the city this afternoon. His arrival at the Hollenden hotel at the headquarters of the delegates, and the fact that the delegates of Columbus was the signal for an ovation. Cheers after cheers were given for the governor, and the delegates were drawn up in front of the hotel and cheered him.

The governor mounted a table in the center of the rotunda and bowed his acknowledgments, but the cheering was so loud that he could not hear his friends. "I have not much to say," he said, "but I have not much to say." [Laughter and cheers.] This afternoon and evening the governor remained at his headquarters and received his friends.

There is no doubt of his nomination on the first ballot," said he to an Associated press representative. "It is a simple question of adding as I already have secured from far more than enough delegates to insure my nomination. I think that the result, whatever it may be, will be accepted philosophically by all my worthy competitors, and that the democratic party of the state will present an unbroken front to the enemy this fall."

**Nebraska Delegation Quarters at the Elliott.**  
The Nebraska delegation is quartered at the Elliott.

**Mexican Railway Official Takes Poison and Will Probably Die.**  
ATMOSC, Kan., July 14.—[Special Telegram to THE BEE.]—Day before yesterday Dr. L. R. Stammer registered at the Bryan hotel from Monterey, Mexico. His actions were very peculiar, and he was observed to be in a state of great distress.
